The abstract of the disclosure is objected to because it has not been presented in the proper domestic form. Correction is required. See MPEP § 608.01(b).

Claim 26 is objected to because of the following informalities: the terms "1, 1"" (line 4) and "3 3" (line 10) should be corrected. Appropriate correction is required.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear from claim 1 whether a compound is being claimed or a mixture of compounds. The claims are also indefinite since formula 1 in claims 1 and 26 has not been set forth. Therefore, there is no antecedent basis for the variables R, R1 and R2. Claim 26 is also indefinite in the formulas 1 and 3 have also not been set forth.

Claim 28 provides for the use of a substance according to claim 1, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 28 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under
